

Why?

by Mariel

Why do girls some countries get to go to school,
but in some other countries they can't?

Why do you get a room with blankets and beds,
but in some places there are many kids on the floor with
nothing to keep them warm?

Why do you have a nice house to live in,
but in Africa they might live in a mud house?

Last, but not least...

Why you aren't scared of mosquitoes like kids in Africa?
When they hear a mosquito, they may hear death.*

* Every 30 seconds a child dies in Africa from Malaria.
It only cost \$10 to buy one bed net.
So buy a net, prevent malaria and help save a life!
